

I listen to K-LOVE on 91.1 and am concerned about the proposal to give priority to LPFM over FM stations. K-LOVE is a family friendly station allowing the youngest member of the family to listen without fear of harm. K-LOVE has a positive and encouraging impact on my life and on the lives of the community. Organizations are able to inform members of the community of programs and happenings in the area. Please reconsider any changes made to the broadcasting service.

Thank you
